

## Additives

# Gilded Halo

The easiest way to use CND Additives is straight out of the jar, burnished into CND Shellac™ Power Polish! Additives and Shellac offer unique, one-of-a-kind looks that are so easy and quick to create.

### **STEP 1:**

- P.E.P. the natural nail. (For details see our CND Shellac Step-by-Steps).

### **STEP 2:**

- Apply a thin layer of Shellac Base Coat and cure for 10 seconds

### **STEP 3:**

- Apply two layers of Shellac Cocoa and cure each layer for two minutes.

### **STEP 4:**

- Dip the tip of a dry Gel Flat Oval Brush into Additives Antique Bronze and lightly feather it around the perimeter of the nail. The Antique Bronze will adhere to the tacky layer of Shellac.

### **STEP 5:**

- Apply a layer of Shellac Top Coat and cure for two minutes.

### **STEP 6:**

- Wipe with 99% Isopropyl Alcohol to remove top film.
